PRELUDE

You need to:

Find a **problem worth solving**.

Design a **unique user experience** that people have never dreamed of.

Get to know your **customers** and tailor an **addictive solution** that is scalable.

Create a story around your **unique value proposition**.

Find shortcuts, and copy and use all available resources to be **agile**.

Act like a guerrilla warrior - **resources** are scarce.

Use the **BEM Model** to accelerate your startup!

Engage your mentors to solve the problem.

You will survive only if you act as a **team!**

Goals are dreams with deadlines!

EIA IN NUTSHELL

IMPORTANT TO KNOW

- **The address of the EIA venue in Portugal:**
 - **WEEK 1 & 2 – Av. Amaraal, 2765-192 Estoril, Portugal (Estoril Congress Center)**
 - **WEEK 3 – Av. Marginal 8554, 2754-536 Cascais, Portugal (Hotel Cascais Miragem)**
- Wear your badge throughout the EIA program - it ensures you can enter the venue.
- Your main tools in the program are the EIA Playbook, the EIA Online Platform, and Slack.
- After completing each task in the EIA Playbook, update your idea's Lean Canvas.
- Every evening plan your next day according to your Teamwork & Team Roles template.
- Sign up for clinic sessions each week (follow the specific sessions in the EIA Playbook and the instructions for signing up in Slack).
- Remember to set a goal for launching your product to the market and the marketing campaign on DAY 10.
- Competences in your team:
 - Business person
 - Marketer
 - Software Developer (max 2)
 - Designer
 - Other
- Daily agenda*:
 - 10 a.m. - 12 p.m.: Keynote session
 - 12 - 1:30 p.m.: Lunch
 - 1:30 - 2:30 p.m.: Keynote session
 - 3 - 6 p.m.: Team Mentoring session
 - 6 - 8 p.m.: Independent Teamwork

* Except DAY 4, 10 & 15

THE EIA PLAYBOOK

- **Download the templates** from the daily toolbox to your computer.
- **You can edit** the templates once you have downloaded them (editable PDFs).
- Use the same downloaded files during EIA (some blank templates recur in the Playbook).
- **Upload completed templates** daily to EIA Platform under you Idea page (**File tab**).

THE EIA PLATFORM

- **Log into your EIA account**
- Open your **team's idea page** to find your Worksheet divided by dates. The Worksheet explains your business goal and business tasks for the day.
- Click on the **'Daily materials'** link to open the day sheet of the Playbook, with goals, tasks and tools listed.
- Each day before 8 p.m., fill in the Worksheets **'Task division by team'**, and **'Report by team'**; rate your mentors and provide feedback on your cooperation.
- Before 9 a.m. next day, mentors will fill in **'Feedback by mentor'** and **'Mentor validation'**. They can also add detailed comments.

WHO IS WHO IN YOUR TEAM?

CEO

I am a leadership
ninja!

CMO

I know how to get
1,000 customers/users
in just 1 week!

CTO

I develop apps like
Instagram in just 1 day!

CBO

My innovative business
model turns an idea
into value!

CDO

My creativity combines
a marriage of UI and
UX!

WHO IS WHO AMONG YOUR MENTORS?

Chief Mentor

DAY 0-7

For business mentoring and team management

IT Mentor

DAY 6-10

For product development and coding

Design Mentor

DAY 6-10

For UX and UI design, and for product development

Marketing Mentor

DAY 7-10

For marketing strategy and campaign design

Life Coach

DAY 1-15

For personal development-related questions

IP Lawyer

DAY 11-13

For intellectual property protection

Pitch Coach

DAY 12-14

For pitch design, training and fine-tuning

Investor

DAY 14-15

For fundraising mentoring

TEAMWORK & TEAM ROLES

Our team name:

Idea:

Name	Main competence					Main role in the EIA team
	Marketing	Business	Software development	Design	Other	
<i>Example: David</i>	✓			✓	<i>Pitching</i>	<i>CMO</i>

CUSTOMER DEVELOPMENT

Lead questions for your Mentor this week:

Chief Mentor

How do you form a dream team?

How do you organize teamwork and roles to achieve your goals?

How do you find the right problem and the right solution for the right customer at the right market?

PRE-PROGRAM

GOAL: Get to know your potential team members

The team is the most crucial factor for success. If you have a startup idea uploaded on the EIA Online Platform, the Meet & Greet session gives you the opportunity to finally meet your potential team members, and connect around your idea. Find any missing competences, and create your team to work with throughout the EIA program.

IMPORTANT

At the EIA Venue in Estoril Congress Center
(address: Av. Amarel, 2765-192 Estoril, Portugal) at 5 - 7 p.m.

Confirm your team members by midnight on the
[EIA Online Platform](#).

TOOLBOX

(Click me)

Color-coded name badges

 [Teambuilding Template](#)

TASK 1: My Expertise Profiling

- Take your **color-coded name badge** from the reception. The coloring for expertise are: **green** - business; **red** - marketing; **blue** - IT; **yellow** - design; **white** - other.
- Go to the meeting area for the Speed Dating

TASK 2: Speed Dating

- Find the team you signed up for on the [EIA Online Platform](#), or if you do not have a team yet, try to find your perfect team during the Speed Dating.
- Pitch your problem/solution to each other during 4 minutes to find or confirm your dream team.
- Keep in mind that a team's success is relative to the diversity of expertise in a 5-member team.

TASK 3: Dinner

- Gather the group of people that you would like to team up with, and go to dinner together.
- Don't forget to take the [Teambuilding Template](#) from the reception with you.

GET INSPIRED:  [Why Diversity is Good for Tech Startups Aiming for Global](#) by Maelle Nys (OneSky Blog)

GOALS: Team of 5 is formed, problem is finalized and adjusted on the EIA Online Platform

The goal of this day is to form teams of 5 people with different competences, who share a passion to solve the same problem and work towards the same goals. If you are still missing some team members or you do not have a team yet, don't worry. Chief Mentors at today's team mentoring session will help you with matchmaking. You can also visit Team Clinic. Thoroughly discuss all the potential ideas on the table - the possible problems, and solutions. This helps you decide who you would like to work with.

IMPORTANT

Find your teamwork room by your business field on the **Room Map** presented via screens at the EIA Venue - you will meet your Chief Mentor there!

Find your missing team members or get ideas of who to join with in **Team Clinic** at 3 - 6 p.m.

TOOLBOX

(Click me)

Board for the team's name and competences

➤ [Problem Canvas](#) on the EIA Online Platform

➤ [Lean Canvas](#) (Solution field)

➤ [Unique Value Proposition Template](#)

TASK 1: Team Formation

- Go to your teamwork room by your business field (see the **Room Map**). If you have already formed a team of 5 occupy a free table with your team and write your team's name and competences on the **Board** on your table.
- If you are missing team member(s), send a representative to **Team Clinic** to find the missing member(s).
- If you don't have a team of 5 yet, ask the Chief Mentor in your teamwork room for help.
- If you still have not found the right team, visit **Team Clinic**.

TASK 2: Ideation

- Update the [Problem Canvas](#) to describe different problems.
- Jointly choose and design the problem you wish to solve and the possible solution you wish to develop further (on the [Lean Canvas](#)).
- Describe your [unique value proposition](#) on the template.

GET INSPIRED: ➤ [The 7 All-time Greatest Ideation Techniques](#) by Chuck Frey (Innovation Management)

GOALS: Problem-Solution fit found, competitors mapped, industry trends defined, business idea fine-tuned

Problem-Solution fit means that you have evidence that customers care about certain problems (pains/gains) and that you have designed a solution that addresses those problems. Customer problems (pains) are anything that prevent customers from getting a job done smoothly. "Good" customer problems are:

- problems/pains/passions that **many** others have
- problems that occur **often** enough (toothbrush test - 2 x a day)
- problems that are serious enough that customers are ready to pay to get (rid of) them.

Map your direct and alternative competitors to be sure you have a unique value proposition and competitive advantage(s). Define industry trends to get an overview of the perspectives, patterns and potential in the business field.

IMPORTANT

Find your missing team members or find an idea to join up with in **Team Clinic** at 3 - 6 p.m.

Confirm your team members by midnight on the [EIA Online Platform](#).

TOOLBOX

(Click me)

- [Google Tools Template](#)
- [Google Search](#)
- [Youtube](#)
- [Google Advanced Patent Search](#)
- [Keyword Planner](#)
- [Google Consumer Barometer](#)

TASK 1: Competition

- Use the [Google Tools Template](#) to search for online evidence about your problem and solution:
 - Find the competition and similar solutions that already exist.
 - Identify alternative solutions that already exist.
- This is your first Moment of Truth - either you have found your scalable idea and should continue fine-tuning it, or you have to design a new one (pivot). In that case go back to describing idea(s), defining problem(s), and finding an UVP.

TASK 2: Demand and Trends

- Find the industry trends relevant to your business field by using [Google Search](#). The search is valuable to fine-tune your idea and to support your explanation of why you are developing the specific solution for the problem.
- Find the popularity and relevance of keywords describing your problem and solution using tools in the toolbox.

GET INSPIRED: [Market selection - How to Select a Target Market for New Product Launch](#) by Motarme

GOALS: Product-Market fit identified, customer insights interview prepared

Product-Market fit takes place when:

- you have (online) evidence (data) that your solution (product, service) is actually creating customer value
- your product possibly scales in the market.

Basically, it means being in a good market with a product that can satisfy that market. In a great market - a market with lots of real, potential customers - the market pulls the product out of the startup. Lack of market is the #1 startup killer, and neither a stellar team nor a fantastic product will redeem a bad market. To define your market, describe your customer persona first - your target market is actually a group of customers. Be ready to go out of the building tomorrow to validate your idea among potential customers.

<p>PREPARE FOR TOMORROW</p>	<p>IMPORTANT</p> <p>Take with you from your table:</p> <ul style="list-style-type: none"> - Playbook DAY 4 printout 	<p>TOOLBOX</p> <p> (Click me)</p>	<ul style="list-style-type: none"> The Customer Canvas on the EIA Online Platform The Market Canvas on the EIA Online Platform Google Search Google Consumer Barometer Ground Rules for Interviewing
------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

TASK 1: Customer Design	TASK 2: Market Selection	TASK 3: Prepare Customer Interview
<ul style="list-style-type: none"> - Complete the Customer Canvas on the EIA Online Platform. Choose from among the versions for B2B, B2C or double-sided. - NB! If your solution is for B2B, arrange meetings for tomorrow with potential clients from your target group to test the idea. Use Google Search and contact them. Find the right people within organizations (decision makers). You can also contact them via LinkedIn, email or phone. 	<ul style="list-style-type: none"> - Continue your work on the EIA Platform. Fill in the Market Canvas to select the market with the biggest potential. Use Google Search and Google Consumer Barometer. 	<ul style="list-style-type: none"> - Prepare a customer insights interview for your potential customers using Ground Rules for Interviewing. Do not forget to take it with you tomorrow.

GET INSPIRED: [Customer Persona - Personas for Needfinding, Design & Growth](#) by Alexander Cowan
[How to Select a Target Market for New Product Launch](#) by Motarme

GOAL: Problem validated (discovered)

Before starting a product development you have to validate the problem and the solution with your customers. As a startup, by definition you are making many assumptions. You need to validate these as early as possible to avoid spending time and money on building something nobody wants. Validation also forces you to get in touch with your users, which could save you the pain of building a product that is hard to use or understand. Customer validation will help you figure out if people will buy your product before you build it.

IMPORTANT

Remember to take your prepared **Customer Insights Interview** with you for validation.

TOOLBOX

Customer Insights Interview

[Google Tools Template](#) (in case of pivot)

TASK 1: Problem and Customer Validation	TASK 2: Feedback Analysis	TASK 3: If You Need To Pivot
<ul style="list-style-type: none"> — Talk to your potential customers to discover if they actually have the problem, using your prepared customer insights interview. — Make sure you only take into account answers from your selected customers (target group - geographical, cultural, gender, age, income etc.), not everybody you meet on the street. — Make notes in order to use them in Feedback Analysis. — Your aim is not to get a specific number of tests but a consistency that allow you to draw conclusions. 	<ul style="list-style-type: none"> — Summarize and analyze the results from your interviews. — Read each answer carefully, but identify patterns and trends rather than drawing conclusions based on individual comments. — This is your second Moment of Truth: no problem validation = search for a new problem to solve! If your assumptions are not confirmed you have to pivot (= change direction) - either you have chosen a bad problem, proposed a weak solution, or targeted the wrong customer. Remember that you are looking for a global scale idea! 	<ul style="list-style-type: none"> — If you need to pivot, search jointly for a new problem to be solved, or change your target customer. — Search for evidence for your new problem/solution/ market, using the Google Tools Template.

GET INSPIRED: [Validate or Die: Using Validation to Build the Right Product](#) by Kunal Punjabi (Mind The Product)
[Customer validation - How to Interview your Customers](#) by Customer Development Labs

GOALS: Minimum Viable Product (MVP) prototype is ready for product development, and initial solution validation will be done during the weekend

Paper prototyping is mostly known for prototyping user interfaces, but it can also be used to make customer journeys, visualize ideas or just to have some fun. Prototyping on paper is cheap, allows rapid iteration, increased creativity, and engages all team members in making their idea tangible. Digitize your prototype to get initial feedback about your product online. Start planning your product sprint, and keep the BEM model in mind.

IMPORTANT

EIA Startup Expo will take place on DAY 10. You will present your prototype canvas there. Start preparing for it today (see also DAY 7 and DAY 10).

TOOLBOX

MARKETING CAMPAIGN PRODUCT SPRINT

Lead questions for your Mentors this week:

Chief Mentor

How do you validate and scale your business model?

Marketing Mentor

How do you launch a kick-ass marketing campaign in just 3 days?

IT Mentor

How do you develop in a lean mode, to launch the MVP on Friday?

Design Mentor

How do you design a unique user experience?

BUSINESS

GOAL: Revenue model designed

A revenue model describes how you make money. A strong revenue model is particularly important for early stage startups, as their potential investors are usually very conscious about monetization. They want to estimate the business potential: cash flow, frequency of purchases, and recurring revenue through customer life cycle (CLC).

PRODUCT

GOALS: Minimum viable product concept ready - development accounts created

While building your solution, use as many existing components as possible from the web. Use the [BEM Model](#).

TOOLBOX

Share prototype with your team. 	<ol style="list-style-type: none"> Build landing page for your product. Create visuals for your product.

GET INSPIRED: [6 Drivers That Determine Your Revenue Model](#) by George Deeb (The Next Web)
[15 Early Traction Growth Hacking Strategies For Startups](#) by Stuart McKeown (Gleam)

BUSINESS

GOAL: Business model completed

Business model fit takes place when a value proposition is embedded in a profitable and scalable business. Some business models are better than others by design, and produce better financial results. They are more difficult to copy, and more likely to support growth.

PRODUCT

GOAL: 40% of product functionality completed

The fastest way to get back on track after pivoting is to use existing components from the web. Don't spend time building something that already exists!

IMPORTANT

The EIA team will collect your canvases tonight for the EIA Startup Expo. You have to assemble your canvases yourself on DAY 10.

BUSINESS

GOALS: Marketing strategy and marketing campaign designed

Your marketing strategy and go-to-market plan must focus on four aspects:

- What will you sell? (solution & unique value proposition)
- Who will you sell to? (customer segment)
- How will you reach your target market? (distribution channels, partners, etc.)
- Where will you promote your product? (marketing channels)

PRODUCT

GOALS: 80% of functionality completed; landing page in progress

The landing page is important to gather leads for the launch. Most of your solution should be ready by tomorrow.

FUNDING & PITCHING

Lead questions for your Mentors this week:

IP Lawyer

How do you protect a solution and business from competitors?

Pitch Coach

How do you pitch like a boss?

Investor

How do you deliver a perfect pitch and get funding?

GOAL: Intellectual Property (IP) plan designed

Why and how do you protect your IP in the early stages of company development? In addition to patenting everything, startups need to think about their employees, contractors, suppliers, customers, and possible partners as part of their IP strategy. Integrate your IP strategy into your pitch to secure funding and scale your business profitably.

IMPORTANT

NB! Your new EIA Venue: Hotel Cascais Miragem

between 3 - 6 p.m (Mon – Wed, pre-register).

TOOLBOX

(Click me)

- [IP Protection Plan Template](#)
- [Google Advanced Patent Search](#)
- [Google Analytics](#)
- [Marketing Campaign Template](#)
- [Letter of Intent Sample \(B2B\)](#)

TASK 1: Design IP Protection Plan

- Use the [IP Protection Plan template](#) to draft a plan to protect your intellectual property. Review it with the IP Lawyers in the IP Clinic.
- Conduct a patentability search ([Google Advanced Patents](#)) to learn if your solution has already been patented. In Europe, software and mobile apps are not patentable. Search for trademarks and copyrights instead.

TASK 2: Marketing Campaign Improvement

- Measure and analyze your marketing campaign results using **analytics tools (e.g. Google)**, and update your [Marketing Campaign Template](#).
- Improve the campaign messages, selected marketing tools, and channels to get more customer leads.
- For B2B solutions, contact your potential clients and make demo calls in order to get [letters of intent](#) and confirm their interest/willingness to buy from you.
- Extend reach to more leads, possible customers or users.

GOAL: Startup financial indicators set

Corporate financials focus on planning and budgeting. A startup's financials focus on monitoring and validating. Therefore, you need metrics to evaluate whether your business model is worth scaling into a company. One of the most important slides in your pitch will be about startup financials. Be prepared to impress with numbers!

- [Financial KPIs](#)
- [Pitch Deck Template Sample](#)
- [Canva](#)
- [Marketing Campaign Template](#)

TASK 1: Calculate Financial KPIs

- Calculate the listed [Financial KPIs](#), integrate the most relevant KPIs into your pitch, and be ready to answer the investors' questions about the rest.

TASK 2: Prepare Your Pitch

- Prepare your pitch (using different tools e.g. the [template](#) sample provided, [Canva](#) etc). Remember that you can only present your pitch for **3 minutes**.

TASK 3: Marketing Campaign Improvement

- Measure and analyze your marketing campaign results using **analytics tools (e.g. Google)**, and update your [Marketing Campaign Template](#).
- Improve the campaign messages, selected marketing tools, and channels to get more customer leads.
- Extend reach to more leads, possible customers or users.

[How To Fix A Broken Marketing Campaigns](#) by WorkFront

GOALS: Funding strategy for your startup is defined and pitch finalized

Every startup needs capital, whether for funding product development, for initial launch efforts, acquiring inventory, or paying that first employee. The most successful entrepreneurs are the ones who think creatively, not only about their product offering but also about how to get cash. A study of the perfect pitch shows that investors take an average of 3 minutes to make an investment decision. The most important slides are those on funding, financials, team, and competition. Keep your pitch and slides simple and captivating.

-  [Funding Strategy Template](#)
-  [Guide for Funding Path](#)
-  [Pitch Deck Template Sample](#)
-  [Best Startup Pitches](#)
-  [Startup Summary One-pager](#)
-  [Marketing Campaign Template](#)

TASK 1: Create Funding Strategy

- Use the [Funding Strategy Template](#) to define the most suitable funding strategy for your startup.
- The [Guide for Funding Path](#) will help you.
- Be clear about how much money you need, and exactly what you need it for.

TASK 2: Prepare Your Pitch

- Finalize your [Pitch Template](#). Include the latest data of market traction.
- Keep rehearsing your pitch until you can nail it every time!
- Learn from the [Best Startup Pitches](#).
- You can choose who will present the pitch, but the whole team has to be on stage during the Pitching Day.
- NB! Use the [one-pager](#) to summarize your startup main points, and upload it to the EIA platform before tomorrow's meetings with investors. This document will be the #1 source for investors about your startup, and give you access to investors meetings.

TASK 3: Marketing Campaign Improvement

- Review your [marketing campaign](#) again and find ways to improve its efficiency to get some more customers. You will measure your final results of the campaign tomorrow evening! Still no customers? Take a phone and make calls to 200 of them.

- ☞ [100 Days Action Plan](#)
- ☞ [Startup Checklist](#)
- ☞ [Marketing Campaign Template](#)
- ☞ [The EIA platform](#)
- ☞ [Pitch Deck Template Sample](#)

TASK 1: Plan Your Future

- Design a [100 Days Action Plan](#) for your team's immediate future - what happens after EIA?

TASK 2: Measure Campaign Results

- Measure your marketing campaign final results, update your [Marketing Campaign Template](#), and use the data in your pitch.
- Upload proof of your market traction (screenshots of web analytics, mobile downloads, e-mails etc.) to the [EIA platform](#) by 8 p.m.

TASK 3: Fine-tune Your Pitch

- Fine-tune your pitch, and upload it to the [EIA platform](#) by 8 p.m.
- Based on your uploaded pitch, EIA mentors and investors will decide on the Top 10 teams who will present their pitch on the final demo day.
- Be ready to jump on the stage - presenters will be announced during the demo day. Your pitch slides will be taken from the [EIA platform](#).

GOAL: Funding acquired!

Making an impression on the investors within the first few seconds of your appearance and pitch will be crucial, and can mean everything for your future business success - or failure! When you are able to pitch like a boss, it means that you are able to talk and sell your ideas to anyone, at anytime, and anywhere, be it Warren Buffett himself. Often, how you pitch may become even more important than what you pitch. So - go up there, rock the stage, pitch like a boss, and raise the money!

DAY AGENDA

- 10 - 10:10 a.m. – **Welcome and Day Overview**
- 10:10 a.m. - 12 p.m. – **Pitching Carousel**
- 12 - 1:30 p.m. – Lunch
- 1:30 - 3:00 p.m. – **EIA Grand Pitching: Top 10**
- 3 - 6 p.m. – **EIA Graduation Gala + Awards**

Carousel format:

- 3+3+3 min (3 min pitch + 3 min questions from investor to team + 3 min questions from team to investor)

- Scalability (proof of business model fit)
- Team and execution
- Presentation

EPILOGUE

You have made it at EIA! Now go and make it happen outside!

Use the startup capital wisely for **scaling** and leveling up your business.

Leverage your **early customers** to move from MVP to the next level.

Keep and grow your **network** of mentors, advisors, and supporters.

Use the expertise of your investors.

And remember – it still remains mainly about the **team!**

You dreamt big – now **dream even bigger!**

THANK YOU!
